

Lightweight and Portable

Equipped with Compal LGA modules. The world's smallest 5G MiFi design. Lightweight and Portable with only 235g.

The world's first 5G Qualcomm X55 MiFi

Equipped with Snapdragon X55 5G, APAL 5G MiFi supports both NSA and SA networking with less power consumption.

The Snapdragon X55 5G modem can provide connection speed of up to 7.5 Gbps(mmwave) between the user and the cloud.

Up to 10 hours of battery life (supports 2.0 fast charge)

Built-in LAN and USB 3.1 ports for stable wired connection

The world's first removable battery 5G Mobile MiFi

5G MiFi can also act as a 5300mAh power bank

SMART BEYOND IMAGINATION

UNLIMITED INNOVATION

The world's first mobile hotspot that supports LAN, USB, and Wi-Fi

The world's first mobile hotspot that supports LAN, USB, and Wi-Fi connectivity. WiFi6 provides 5G connectivity to existing smart devices with wider coverage range and higher speed compared to current WiFi.

Connect up to 30 Devices

Support 2 x 2 MIMO and OFDMA with dual-band Wi-Fi for stability. It can be connected to up to 30 users simultaneously. High speed and low latency to provide the best experience when watching movies and playing games.

APAL 5G MiFi is compatible with all your smart devices

Supports standard Wi-Fi 802.11ax with dual 2.4GHz and 5GHz channels to prevent interference in a complex Wi-Fi environment. 4G mobile phones, tablets, laptops, etc., can all experience the ultra-fast 5G network via the APAL 5G MiFi.
